Mission of the eHealth team

We develop ICT based solutions to provide new **links** between the partners in the biomedical **research domain** and in the **healthcare system**

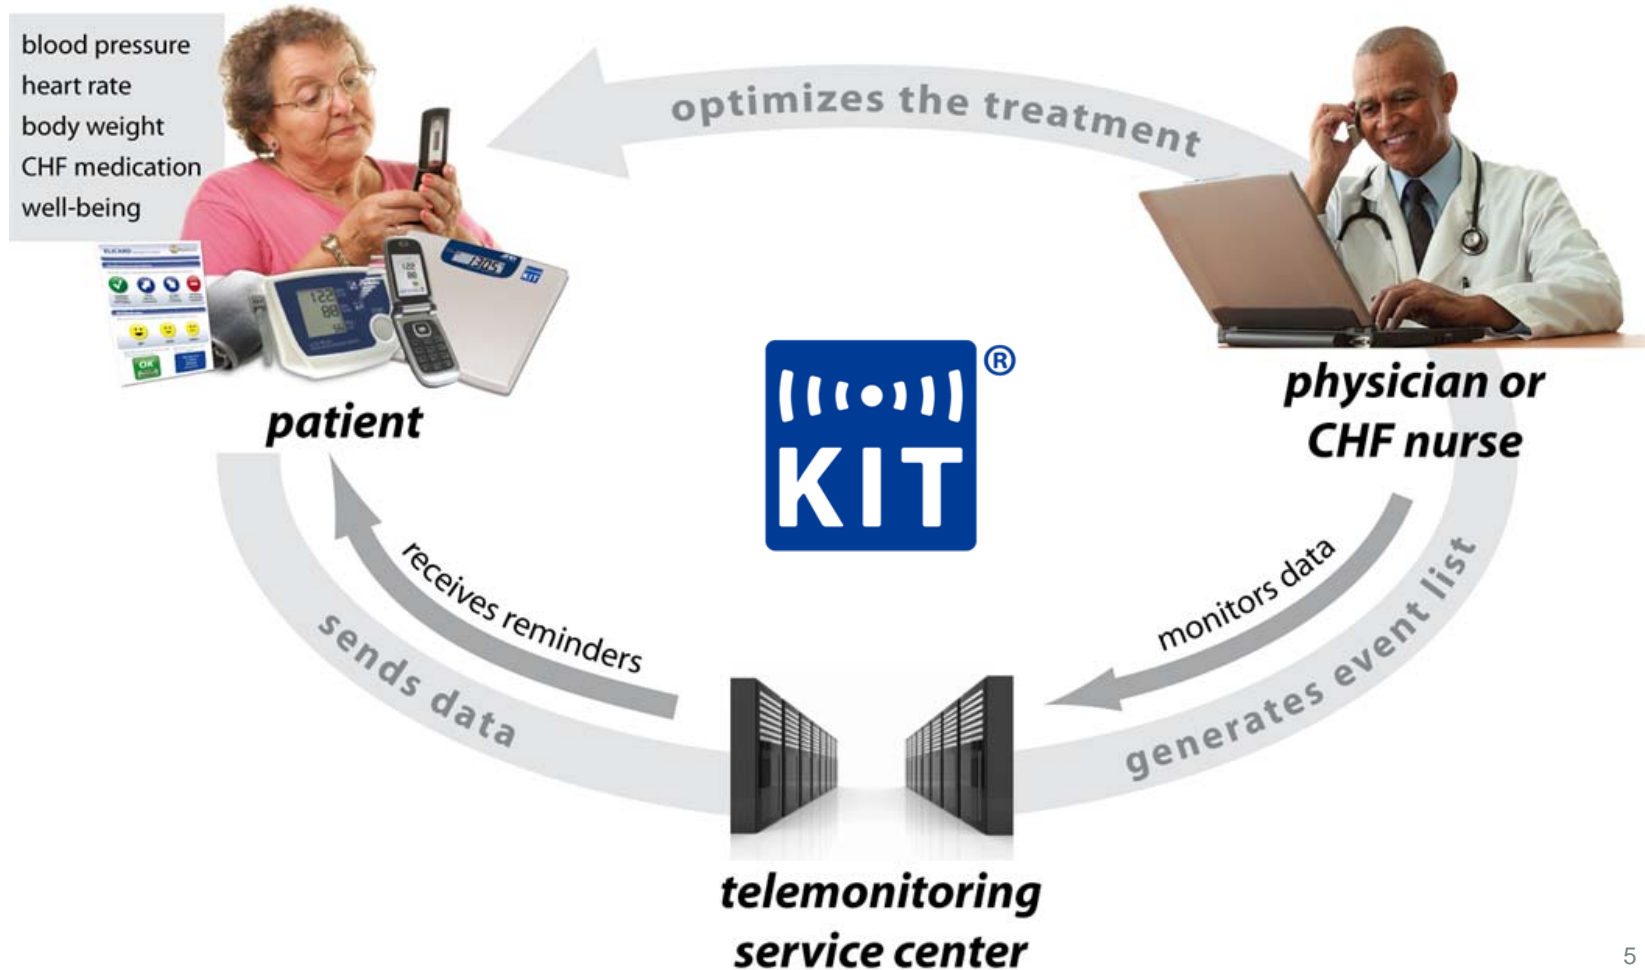

ICT for Health and the Aging Society

Closed Loop Health Care for safe and efficient therapy of patients with chronic diseases
Ambient Assisted Living to enhance security and independent living of elderly people

driven by The Internet of Things for Health and AAL

Closed Loop Healthcare

AIT eHealth

We provide

- **Best**
 - Biosignal processing algorithms and research tool set (ECG & EEG)
- **Ingenious**
 - Regulatory compliant, interoperable, web based ICT platform
 - Safe and secure data acquisition via KeepInTouch (KIT) Technology
 - Decision support for event detection and alarm management
- **Fast**
 - Bio-inspired Vision Sensors

to achieve

- **Personalized medicine** (individual, safe)
- **Ubiquitous healthcare** (anytime, anywhere, anything)
- **Support for elderly people** (safety, autonomy)

We rely on a strong partner network

- Universities, public authorities, ICT and health care industry

Organizer of the annual scientific eHealth conference

4. Wissenschaftliche Fachtagung

Patient Centered Systems -
der Mensch im Fokus

6.-7. Mai 2010

Schloss Schönbrunn
Tagungszentrum - Wien
