

Komax Group Application Markets

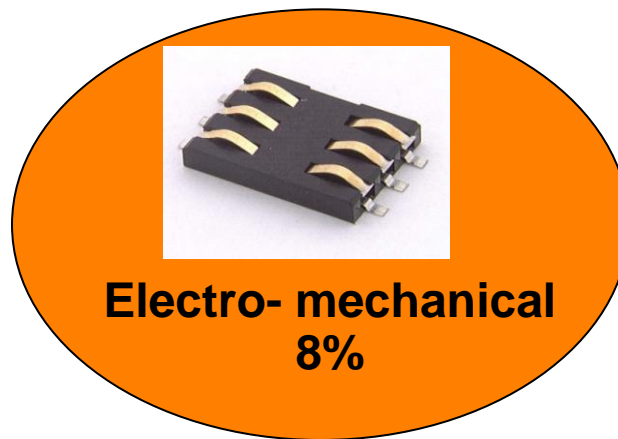

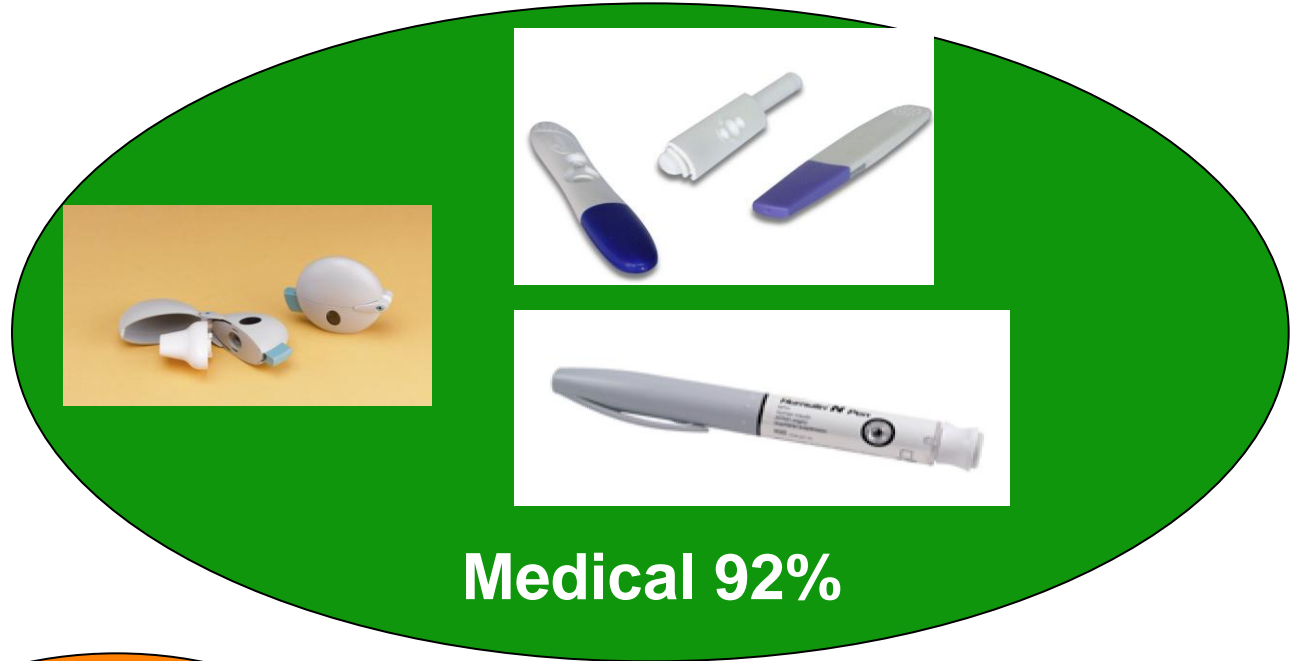

- › Wire process
- › Medtech
- › Solar

Total sales 2008 : ~ EUR 220 Millions

Total Personnel : ~ 1000

Sales by market segment

Open list of process know-how

volumetric dispensing of liquids
flow and leak test
ultrasonic and laser bonding or welding
heat and tip forming
UV or heat based curing
needle feeding and bending
force or torque compliance or measurement
vision and in-process inspection systems
electrical test
weight measurement
bar code printing and recognition
labeling, printing, hot-stamping
feeding and handling
packaging, palletizing, bagging ...

Komax Systems summary

- › **Specialists from manual to high-speed medical device assembly, fully adhering to GMP norms, clean room compliant.**
- › **In-depth medical device assembly and process know-how**
- › **In-house FDA – GAMP validation support experience**
- › **Over 40 years automation experience**
- › **Worldwide service coverage**
- › **15 – 20 equipments (lines) delivered per year from Switzerland**

We Engineer High-Speed, High-Functionality Equipment

From Concept to High Volume

DFM, DFF, DFA (Design for...)

Manual work stations

Stand - alone machines

Pallet based systems

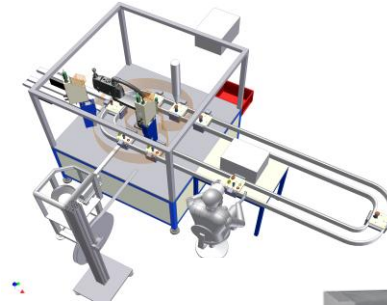

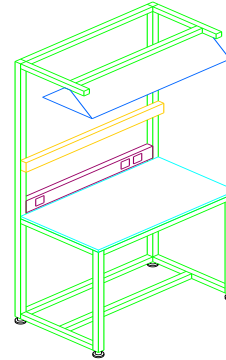

High Volume Rotary indexing systems

High Volume Linear indexing systems

Cam or/and NC Technology

We propose the best platform fit

for the needs of the project

Thank you for your attention

Any interest ?
