Industrial Day and Partnering Event

during the annual conference of the
European Society for Biomaterials (ESB)

September 8th, 2009
Beaulieu, Lausanne, Switzerland

The Industrial Day is organized by the Alps Bio Cluster, the European Society for Biomaterials, the Swiss Society for Biomaterials and Enterprise Europe Network in Switzerland (Partnering Event).

Pre-program of the day

08.30 – 09.00	Georg Winter Award 2008 – Prof. J. Kirkpatrick
09.00 – 09.30	Plenary lecture 1 : Prof. R. Schmelzeisen
09.30 – 10.00	Plenary lecture 2 : Dr H. Seeherman
10.00 – 10.30	<i>Coffee break and Poster Session</i>
10.30 – 12.00	Starting a company :
➤ Starting a Spin-Off / Start-up	F. Conincella (Discovery)
➤ Venture capital	J. Martin-Garcia (Ecllosion)
➤ Patenting & Technology Transfer	G. Voskerician (Proxy Biomaterials)
➤ Patenting & Technology Transfer	L.-D. Piveteau (Debiotech)
12.00 – 13.30	<i>Lunch</i>
13.30 – 15.00	Bringing a product on a market :
➤ Cell culture & animal testing for certification purposes	I. Haist (Bioservice)
➤ Simulating in vivo conditions with in vitro testing	C. Kaddick (Endolab)
➤ Production/quality control	R. Marksteiner (Innovacell)
➤ Product certification	C. Laue (Medipol)
15.00 – 15.30	<i>Coffee break and Poster Session</i>
15.30 – 16.30	Success and failure :
➤ Market & Sales	B. Castellano (Sorin Cardio)
➤ Liability issues	T. Roche (Lawyer Office)
➤ Clinical monitoring	Elena Brini (Genomnia Srl)
➤ Developing the portfolio	L. von Segesser (Smart Canula)
16.30 – 20.00	Tech meetings – Partnering Event
16.30 – 18.00	Poster Session
18.00 – 20.00	<i>Exhibitors evening</i>

Partnering event

16.30 – 20.00 – Pre-organized one-to-one meetings

As part of the Industrial Day, a Partnering Event focused on Biomaterials application is organized through the Enterprise Europe Network.

The aim of the Partnering Event is to foster direct one-to-one meetings among academic and industrial partners from all over Europe. It is ideal for:

- offering innovative technologies / know-how,
- looking for expertise / services / innovative technologies,
- offering application-oriented research results,
- looking for partners for EU-funded projects.

Following topics will be covered: coatings/surface science, ceramics, polymers, metals or composites for implants, biomechanics, tissue engineering, biological response/interactions, drug/gene delivery, analyses/tests facilities and methods, quality assurance and certification in the field of biomaterials.

How to participate in the Partnering Event ?

Companies and research laboratories are invited to fill a technology profile via the website: www.alpsbiocluster.eu to be included in the on-line catalogue and request personal meetings. Deadline to insert a profile: August 14.

Organisation

The Enterprise Europe Network (EEN) is made up of close to 600 partner organisations in more than 40 countries promoting competitiveness and innovation at the local level in Europe and beyond.

This Partnering Event is organized by Enterprise Europe Network in Switzerland and by the following EEN transalpine partners: Chambre de Commerce et d'Industrie de Lyon, de Grenoble et de Rhône-Alpes, Camera Di Commercio Industria Artigianato E Agricoltura Di Torino, Federazione Delle Associazioni Scientifiche E Tecniche – Milano. With the participation of the following regions: Wallonia (BE), Franche-Comté (FR), Westphalia (DE), Paris (FR).

For any further information, please feel free to contact EEN in Switzerland: Mrs Pascale Van Landuyt: pascale.vanlanduyt@epfl.ch – tel. +41 21 693 4971
